

Virtual care where you're most comfortable

Telehealth visits are available through your Humana plan

The doctor is in, even if you can't or don't want to go into an office. Telehealth visits allow you to get nonemergency medical care anytime, anywhere, through your phone,* tablet or computer.

Use telehealth for minor illnesses and infections, medication refills, lab orders, help managing chronic conditions, and other nonemergency appointments.

You may call your trusted local provider to ask if they offer telehealth visits. Or you may register with Humana's national in-network telehealth option, MDLIVE®. With MDLIVE medical visits, you have access to a U.S.-based, board-certified doctor 24/7.

Delivering the care you need securely, conveniently and on your terms—that's human care.

Ask your trusted provider about local telehealth options

Get started with MDLIVE in one of three ways:

1. Download the MDLIVE mobile app from the App Store® or Google Play®
2. Visit the following website:

Limitations on telehealth services, also referred to as virtual visits or telemedicine, vary by state.

These services are not a substitute for emergency care and are not intended to replace your primary care provider or other providers in your network. Any description of when to use telehealth services is for informational purposes only and should not be construed as medical advice. Please refer to your Evidence of Coverage for additional details on what your plan may cover or other rules that may apply.
